Note: Students may declare more than one cluster or major on an e-IGP; therefore, only the first cluster or major chosen is used for reporting.

The primary e-IGP is the approved and locked version of the e-IGP. Only that version is used for reporting. If an e-IGP is created and not designated as primary, then no data is pulled.

Because clusters are designated at the district level, some students may have chosen a cluster that is not offered at their school.
